

Welcome To Management Recruiters of Colorado Springs

Part of MRI Network

Guidance Through Interview Process

- We will answer your questions regarding the various stages of the interview process and the expected timeline of events, such as:
- Why does the employer need a phone interview and what should I expect?
- Who will I meet in the face-to-face interview and how can I increase my chances of getting an offer?
- Reference checks—are these important, or just a game?
- What should I know about background checks, drug screening, pre-hire testing and other speed bumps?
- How should I handle a counter-offer and what impact could this have on my career?
- When should I offer my resignation and how can this be done in the most professional manner?
